FISHWATCH
U.S. SEAFOOD FACTS

Get the Facts on U.S. Seafood

The U.S. is a global leader in sustainable seafood—both U.S. wild caught and farm-raised seafood are managed under the world's most robust science-based standards of accountability.

FishWatch will help you:

- Make smart seafood choices by arming you with the facts about what makes U.S. seafood sustainable—from the ocean or farm to your plate.
- Get up-to-date information on the status of some of the nation's most valuable marine fish harvested in U.S. federal waters as well as U.S. farmed fish that help meet our country's growing seafood demand.
- Understand how U.S. seafood is responsibly harvested and grown under a strong monitoring, management, and enforcement regime that works to keep the marine environment healthy, fish populations thriving, and our seafood industry on the job.

Check out **www.fishwatch.gov** for more information on U.S. sustainable seafood.
